BRACELETS, BANGLES & CUFFS 1948-2024

JUNE 9 – NOVEMBER 17, 2024

Gathering a remarkable collection of contemporary bracelets, this exhibition showcases 90 works by international artists that examine cultural, political, and personal meanings wrapped around a wearer's wrist. A follow-up to *RINGS!* in 2022, the diverse assemblage of bracelets on display includes many works from the collection of Helen Drutt—a renowned educator, author, patron of the arts, and advocate of modern and contemporary craft. Combined with her vast experience in the art world, Drutt adds historic context and scholarly weight to this timeless jewelry form.
